

YOU ARE WELCOME

NEED US? CALL OR TEXT US: 605-349-1990

Welcome to Under Canvas Mount Rushmore

We are delighted you are here and hope your stay with us is enjoyable and unforgettable. This is an outstanding area of natural beauty and we hope that staying with us will enhance your experience Outside Together.

Our safari-inspired canvas tents invite you to immerse yourself in the great outdoors without giving up the comforts of home. We are proud to do this in a way which fosters connection and minimizes impact on the environment. It is our hope that you will take pleasure in the experience we have created for you and return again and again.

Enclosed in this book is a brief overview of useful information you may find helpful during your stay. However, should you have any questions or need further assistance, please don't hesitate to ask.

Out of respect for other guests, please note and adhere to quiet hours of 10 p.m. - 7 a.m. Check-out time on your day of departure is strictly 10 a.m.

Our team is always here to help and can be reached via text or phone call at 605-349-1990.

We hope you enjoy your stay!

A Mindful Approach

At Under Canvas, our mission is to inspire connections with extraordinary places, people, and the planet by enhancing access to the outdoors. We fulfill that mission by taking a Mindful Approach to everything we do – from our sustainability efforts, to the design choices we make, to the experiences we curate for our guests. Here are just some of the ways our Mindful Approach comes to life at our camps.

Giving Back to Nature

We have joined forces with The Nature Conservancy through our employee volunteer hours, employee giveback efforts, and guest donations program, which provides guests with the opportunity to donate \$3, \$5, or \$10 to TNC upon check-in.

Thoughtful Innovation

We employ thoughtful enhancements across our camps designed to elevate the guest experience — through culinary innovation, curated adventure programming, and a localized design aesthetic that reflects the surrounding natural environment.

Resource Conservation

We conserve water and energy at our camps by using pull-chain showers, faucets that automatically shut off, low-flow toilets, and a towel reuse program. We also offer Rivian Waypoint charging stations at select camps so guests can recharge their electric vehicles.

Unplug and Recharge

Wi-Fi is intentionally not offered to our guests, so that they can disconnect from technology and reconnect with others.

International DarkSky Principles

Following guidance from DarkSky International, we use low-level lighting that mitigates light pollution and amplifies the night sky. See the following pages to learn more about our DarkSky efforts and certifications.

Land Conservation

Under Canvas destinations are designed to minimize disturbance and maximize open space. As such, we maintain dedicated, undisturbed green spaces at each camp.

In Good Company

We partner with brands that align with our mission and demonstrate the same care for our planet. These include West Elm, whose furnishings support sustainable initiatives; lululemon, which has committed to 100% renewable electricity for its owned and operated facilities; and EO, whose plant-based bath products are made in a zero-waste facility.

Join us in helping to protect the natural environments we love! Learn more at undercanvas.com/sustainability

Protecting the Night Sky

Did you know that more than 80 percent of humankind—and more than 99 percent of Americans—live under a hazy umbrella of light-polluted skies? And more than 80 percent of North Americans can't see the Milky Way? It's true. Thankfully, there is a growing realization around the world that wilderness extends to the skies—and that it is our responsibility to protect those skies for present and future generations.

With that mission in mind, in 2020, we began working with DarkSky International, the global authority on light pollution, to enhance our sky quality, minimize our lighting impact, and educate others on the importance of preserving the night sky. Today, we are proud to say that five camps in the Under Canvas collection—including Under Canvas Bryce Canyon, Grand Canyon, Lake Powell - Grand Staircase, Moab, and Zion—are officially DarkSky-certified, making them the first DarkSky lodging properties in the world. Moreover, all of our camps adhere to DarkSky principles and are recognized as having some of the darkest and clearest night skies on the planet.

Discover the Magic

Under Canvas comes alive when the sun goes down—when millions of stars, star clusters, and constellations provide a once-in-a-lifetime celestial experience that you'll treasure for years to come.

As a guest of Under Canvas, you'll discover unique activities and amenities that celebrate the beauty and wonder of the night sky. Check out the calendar of events in the main lobby tent to learn more about what's happening throughout your stay.

Did You Know?

Light pollution affects more than our ability to see the stars at night. In fact, the impacts of light pollution extend from humans to plants to animals and beyond. Here are just some of the ways that protecting the night benefits living things around the world.

Each year, artificial light disrupts millions of birds' migratory schedules, causing them to leave their homes too early or too late in the season, and thereby miss ideal conditions for nesting. In addition, birds that navigate by moonlight and starlight can wander off course when the sky is polluted. In fact, millions of birds die every year by colliding into needlessly illuminated buildings.

Artificial light at night disrupts the seasonal cycle of plants and trees. It throws off a plant's response to the change of seasons and prevents many trees from adjusting to seasonal variations. This, in turn, has implications for the wildlife that depend on plants and trees for their natural habitat.

Fireflies, which used to cover much of North America from May through July, have been devastated by light pollution. Relying on complete darkness to perform their mating rituals, fireflies have retreated into the last remaining dark areas and decreased their overall population by as much as 90 percent.

One million sea turtle hatchlings die each year in Florida due to skyglow from urban areas.

New research links the decline of many species with light pollution, including bats, bees, coral, and songbirds. 15 million tons of CO2 are emitted each year from residential outdoor lighting alone. A minimum of 600 million trees would need to be planted annually to offset this waste.

Tips To Light Your Stove

To avoid unwanted smoke in your tent, be sure to remember these important tips:

- · When building your fire, place the wood, kindling, and fire starter as far back within the stove as possible.
- Be careful not to overfill the stove. Add wood and kindling sparingly.
- Please do not put any items on top of the stove. It is very hot and may melt or burn items placed on top of it.

If you need assistance with your fire, please do not hesitate to ask. Our staff is always happy to help!

Place a log on one side of the stove, as far back within the stove as possible. Put the fire starter next to the log and build a stack of kindling around the fire starter.

Light your fire starter.

As kindling begins to crackle, add another smaller log.

Close the front door (to keep the smoke venting out your chimney) while leaving the front door damper completely open (to add oxygen and prevent a smoke out). Add more wood as your fire continues to build.

Once your fire is roaring, close the door and shut the damper to half way.

Continue to add wood to keep your fire going.

Extra firewood is available for your use in the box beside your tent

On-Site Dining

Breakfast and Dinner

Under Canvas Mount Rushmore offers seasonal food and beverages that prioritize locally sourced ingredients from nearby purveyors. Á la carte breakfast and dinner items are served daily in Under Canvas Mount Rushmore's lobby dining area. Grab-n-go lunch and snack items are available for purchase in the lobby tent, as well.

Our Mission

As stewards of the natural environments in which we operate, we are committed to minimizing our impact on the land and following "Leave No Trace" practices. We ask for your partnership in making this mission possible by placing your dining wares, food waste, and recyclables in the receptacles indicated around camp, and we ask that you leave nothing but footprints when venturing in the outdoors.

In Good Company

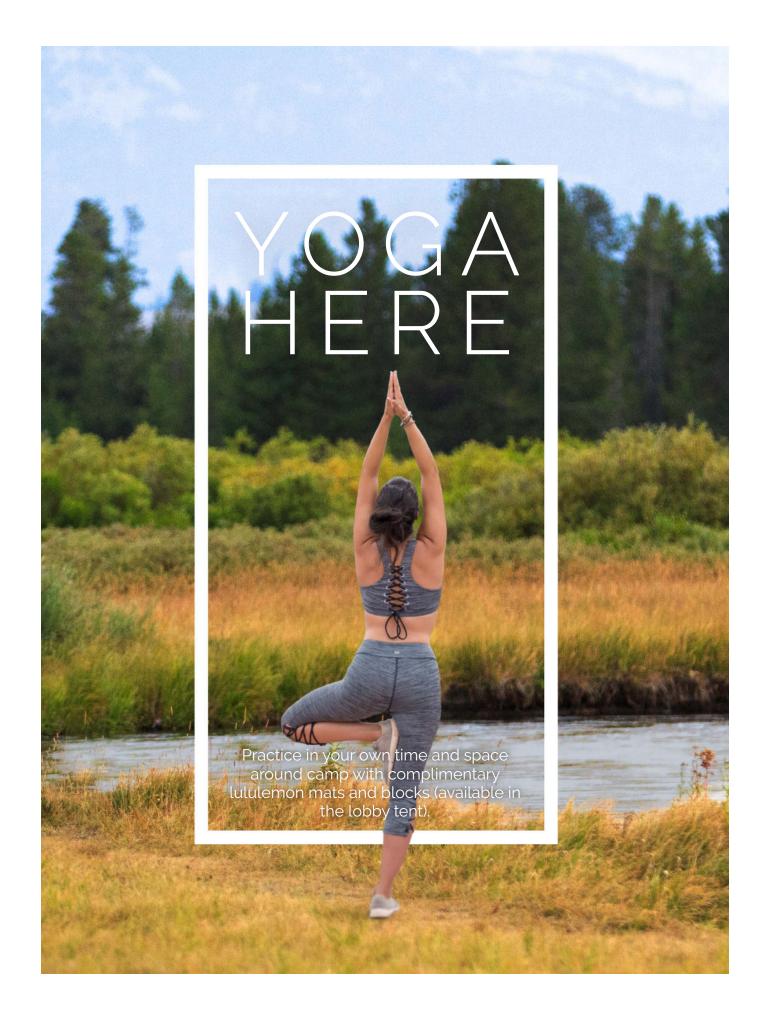

At Under Canvas, we offer an ever-changing array of food and beverage programming designed to bring people together in the outdoors. From social beverage hours in the lobby to evening s'mores by the fire, we cherish moments ripe with flavor and enjoyed in good company. To learn more about our culinary offerings, ask a Guest Experience Coordinator in the lobby tent.

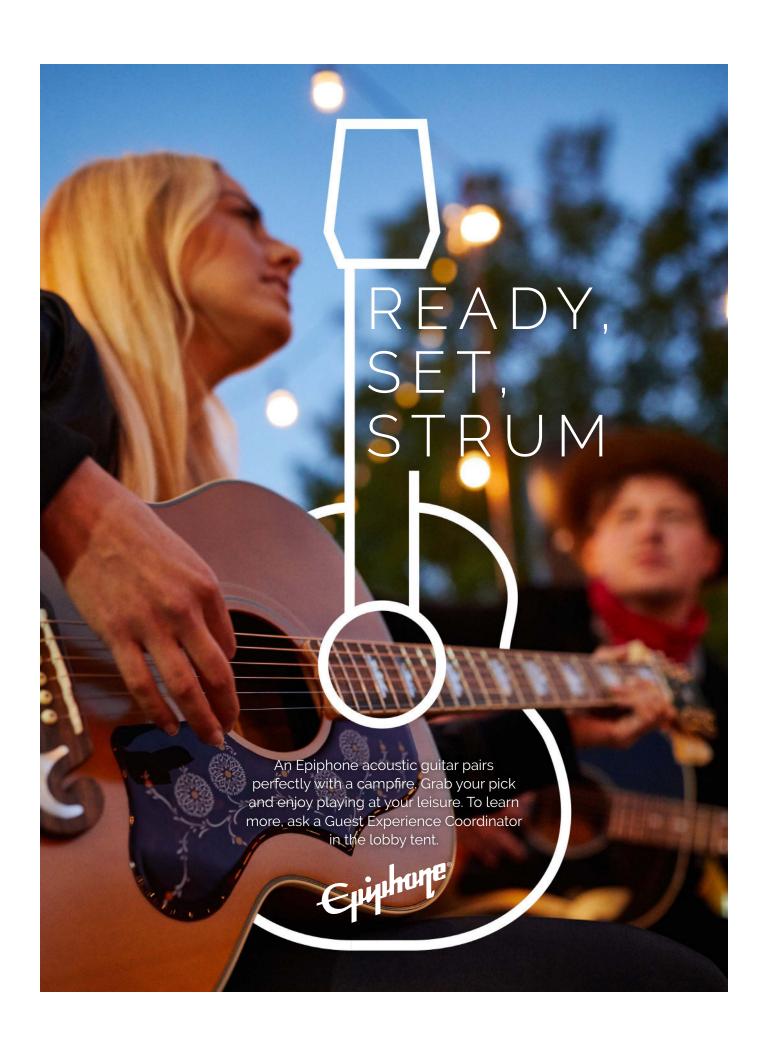

Under Canvas Adventures

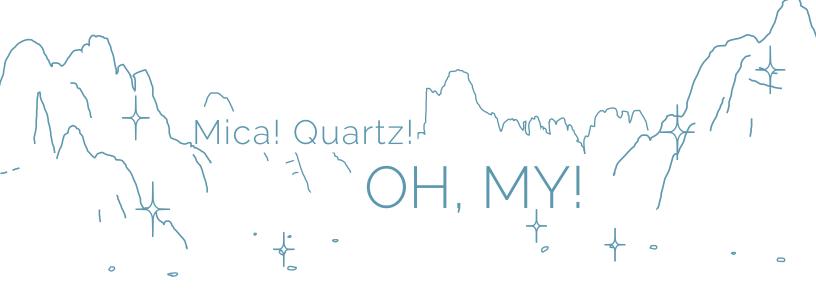

Welcome to Mount Rushmore! There are endless means of exploring the iconic landscape that surrounds our camp. Whether you wish to adventure by trail, on a mountain bike, in a kayak, or by horseback, we can help you design the perfect itinerary for you.

To book an adventure, please visit a Guest Experience team member in the lobby tent.

Did you know over 250 mineral species are found in South Dakota's Black Hills? Among those are *mica* and *quartz*, known for their special glittering quality! Keep your eyes open for all the natural treasures this stunning geographic area has to offer—bright and shiny, they're sure to catch your eye!

What is mica?

Mica is a shiny, flaky mineral found throughout the Black Hills. With a wide variety of "micas", from lavender and brown-black to light-clear, and bronze colors—the Black Hills once supplied one third of all the mica produced in the United States!

What is quartz?

Quartz is a hard, crystalline mineral, found in a variety of colors. The State Mineral of South Dakota is *rose quartz*, and the Black Hills have produced "millions of tons"—used for things like beads, bowls, tabletops, lamps, jewelry, and more.

Where can I spot them in the Black Hills area?

When hiking and exploring throughout the Black Hills (spots like Custer State Park and Jewel Cave National Monument), you'll spot shimmering mica and quartz formations millions of years in the making. The ground will sparkle like glitter when the sunlight hits! Note that "rockhounding", the collecting of small mineral specimens or rocks from the surface, for personal use, is *not* allowed from within historical sites. Please remember to preserve these precious geologic areas and leave them as they are, for future visitors to appreciate!

Emergency Procedures

In case of an emergency, please alert emergency services as fast as possible by calling 911. Please state your tent number and our address: 24342 Presidio Ranch Road, Keystone, SD 57751

In the event of a fire

Please evacuate your tent and alert camp personnel immediately. Please assemble in our main parking lot and follow instructions from camp personnel.

Severe weather procedures

In the event of severe weather or other emergencies, camp personnel may ask you to evacuate your tent and seek shelter inside your car or other safe location. An air horn will be blown as a sign for you to leave your tent and head to safety. Please note all of our tents have been engineered to be safe in heavy storms and high winds.

Innkeepers Code

Chapter 34-34

Negligently causing fire in lodging establishments as misdemeanor – posting of law.

Any person who negligently causes a fire in any part of any lodging establishment, so as to endanger life or property in any way, or to any extent, is guilty of a Class 2 misdemeanor.

43-40-1. Liability of innkeeper or hotel keeper for loss of or injury to property of guest.

No innkeeper or hotel keeper, whether individual, partnership, or corporation, who constantly has in the inn or hotel a metal safe or suitable vault in good order and who keeps on the doors of the sleeping rooms used by guests suitable locks or bolts, and on the transoms and windows of the rooms suitable fastenings and who keeps a copy of this section printed in distinct type constantly and conspicuously posted in each guest room, is liable for the loss or injury suffered by any guest, unless the guest offered to deliver any valuable property to the innkeeper or hotel keeper for custody in the metal safe or vault, and the innkeeper or hotel keeper omitted or refused to take it and deposit it in the safe or vault for custody and to give the guest a receipt. However, the keeper of any inn or hotel is not obliged to receive from any one guest for deposit in the safe or vault any property exceeding a total value of three hundred dollars, and is not liable for any excess of such property, whether received or not.

43-40-5. Personal property of guest not deposited for safekeeping--Liability of innkeeper or hotel keeper--Limitation as to amount--Exceptions.

The liability of the keeper of any inn or hotel, whether individual, partnership, limited liability company, or corporation, for loss of or injury to personal property placed by any guest under the keeper's care, other than that described in §§ 43-40-1 to 43-40-4, inclusive, is that of a depository for hire, except that if the loss or injury is caused by fire not intentionally produced by the innkeeper or the innkeeper's servants, the innkeeper is not liable. In no case may the liability exceed the sum of one hundred fifty dollars for each trunk and its contents, fifty dollars for each valise and its contents, and ten dollars for each box, bundle, or package, and contents, so placed under the innkeeper's care, and all other miscellaneous effects, including wearing apparel and personal belongings, fifty dollars, unless the innkeeper has consented in writing with the guest to assume a greater liability.
